

# Manifolds

## for surface heating systems

OUR MANIFOLDS ARE MANUFACTURED BY ROBOTS AND TESTED BY COMPUTERS

- ▶ Stainless steel and brass manifolds
- ▶ Ideal for surface heating systems
- ▶ Top quality finish
- ▶ Resistant to glycol up to 50%
- ▶ 100% leakproof/watertight
- ▶ A wide variety of control devices
- ▶ 70 °C
- ▶ 6 bar

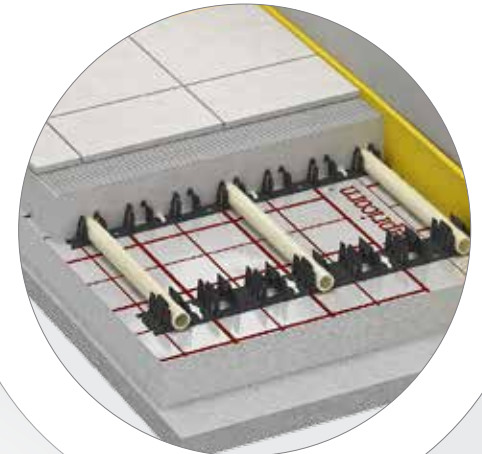

Stainless steel (grade 1.4301) / Brass

**NEW**

Please refer to our wide variety of radiant heating manifolds at: [www.capricorn.pl](http://www.capricorn.pl)

## Capricorn manifolds are designed specifically for **surface heating systems**

**ONLY**  
components  
produced by us!

Control valve  
with flowmeter

or

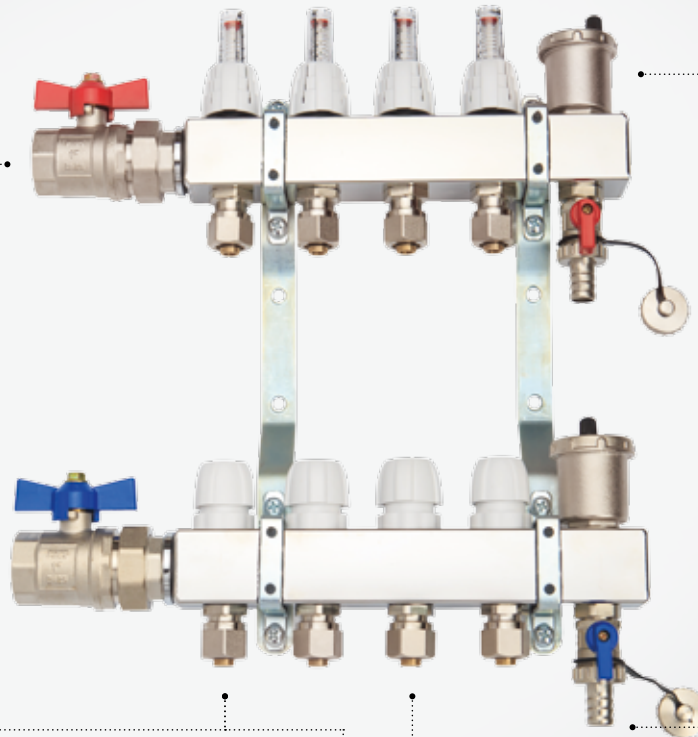

Manual control  
valves

1" straight-run ball valve  
with half union

1" angle ball valve  
with half union

Manual  
air vent

or

Automatic  
air vent

Connection nipple 1/2"

We offer also euroconus fittings  
for multi-layer pipes 16x2

Connection nipple 3/4"

We offer also euroconus fittings  
for multi-layer pipes:  
16x1.5; 16x2; 17x2; 18x2; 20x2

Temperature control valves  
suitable for M30x1.5 electrical  
motor installation

Manual control  
valves
