

Manifold Actuator

NC CAPRICORN **230V** and **24V** version

NEW

A new generation of electrical actuators.

The manifold actuators are provided with a double electrical system to ensure stable and failure-free operation.

Closing force of up to 90 N allows a greater range of applications.

Quality control is present at every stage of the manufacturing process ensuring that the product will meet your expectation in 100%

Normally closed (NC)

Closing force: 90N

M30x1,5

practical LED light indicates operation status

230 V

NEW

Available also in 24 V version

Power supply cable: 1 m

**100%
QUALITY
CONTROLLED**

HIGH PROTECTION DEGREE IP54

resistant to moisture and contamination

100% QUALITY CONTROL

- components control
- tested for proper operation

EFFICIENT

helps to reduce the overall costs of heating system

MAX. ACTUATOR STROKE: 4.5 mm

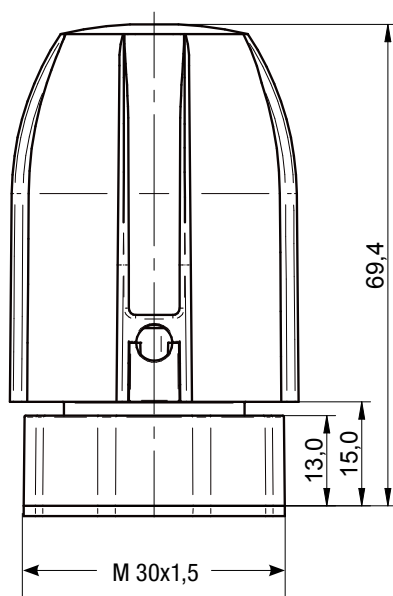

suitable for most control valves

Product code	Colour	Version
9-3850-030-00-22-00	White	230 V
9-3851-030-00-22-00	White	24 V

Closing force	90N
Power supply	230 V 24 V
Power	1.8 W
Actuator connection	M30x1.5 nut
Actuator stroke	Max 4.5 mm
Min. opening time	3 minutes*
Protection degree	IP 54
Cable length	1 m
Cable length	De-energised when closed
Material	Polyamide
Unit packaging	1 [pcs.]
Multi-pack	100 [pcs.]

*In a system in operation
